

Give parents a better booking experience this year

School trips are exciting and fun, but organizing the trip is a lot of work. Our company is here to help you plan and execute the trip. And, this year we want to help you further by helping you collect payments and track registrations. **We are now offering an online payment system tailor-made for your next school trip!**

What is online payments?

When using an online payment system, **parents can make payments 24/7 from anywhere and any device.** No more collecting checks, tracking everyone's payments, and chasing parents to pay their balance due.

Why online payments?

Our system provides more than just payment collection:

Ensure organization accountability

- Track registrations and payments with downloadable reports
- Share access with teachers and parents when needed

Create a better experience for parents

- Pay securely from anywhere, anytime, and any device
- Receive automatic payment reminders

Save time managing the trip

- Build, edit, and share trip registration in minutes
- Collect information and documents in one place

What will parents experience during registration?

1. Read the trip details via their online trip registration page.
2. Pay for the trip (*the deposit or full payment*) and submit any requested information or documents.
3. Receive an email receipt in their inbox as a proof of payment.
4. If there is a payment plan, receive reminders to pay the next installments when due.

This was the first time that our daughter has traveled without us so we were nervous. **The online system's payment plan and monthly reminders kept us on track** since the trip was planned so far in advance. Our daughter had a wonderful time on the trip
